Thank You " Far from Home " Class

WOW, what a great job Cori Rockwood's "Far from Home" class did on Feb13th. With the help of Doreen Noyes FACS teacher the students made almost 2 dozen blankets, collected 2 boxes of supplies and made 30 water bottle Easter Baskets. So cool. I went and spoke to the class and was very impressed by them. They see the Big Picture and they know what needs to be done. They know that our soldiers need to be supported as well as their families. The scope of their maturity isn't realized until projects like this take place. The thought that went into these blankets and Easter bottle baskets was awesome. I would have never thought to cut a water bottle in half, decorate it, put Easter grass and candy in it and you have yourself a very cute gift for our Soldiers. I hope to hear from them again because these are the things that we need from our citizens, support for our soldiers. I would love to see the look on a soldier's face when they get these great gifts. If you get a moment please call the Lamoille Union Middle School in Hyde Park, VT and tell them how proud you are to hear about this class of students. I know I am very proud to have met these young adults, very proud to know them and extremely proud of what they have done for our Soldiers. THANK YOU " Far From Home" class. You're awesome.

The Kids are at it Again!!!

**Lamoille Union Middle School
Hyde Park, Vermont**

On Feb.13th I will be going to Lamoille Union Middle School where Cori Rockwood's class once again is supporting our Soldiers. They have so far made a dozen blankets to be shipped to wounded soldiers overseas. What an awesome group. This will be my first time to meet these young folks and I'm excited. They see the big picture and are willing to step up and do something about it. Next week I will post pictures and my reaction and their reaction will be posted. Please spread the word to other schools to have their classes take on projects. Write letters, make cards or anything else will help. Thank you Lamoille Union in Hyde Park.
